

BUNIONS!

Pain Stops Instantly —
Hump Vanishes
TRY IT AT MY RISK

New, marvelous way to treat bunions. Stops pain almost instantly—banishes the ugly, hump and swollen, burning condition. You can wear a smaller shoe with comfort. Test it at my risk. First trial convinces.

No clumsy apparatus, no rubber mould or protector, no uncomfortable leather shield or felt pad, no plaster nor mummy. It is PEDDYNE, for Bunions.

You will say it is wonderful—amazing, so quick, so sure does it act. Don't waste time and money on useless methods. Don't suffer. Try PEDDYNE at my risk. Write today before you do another thing. Just say "I want to try PEDDYNE."

Address KAY LABORATORIES, Dept. B-271, 538 S. Dearborn Street, Chicago, Illinois.

ALCOHOL DISAPPEARS FROM NEWPORT TORPEDO STATION

Newport, R. I., June 2.—The mysterious disappearance of large quantities of alcohol intended to be used at the torpedo station for mechanical purposes led to the posting of an order today announcing that henceforth the supply will be mixed with wood alcohol and will be poisonous.

The Only Cure.
No corn, no cures. No cotton, no clothes. No wheat, no waffles. No shingles, no shelter. Production is the thing, and it's the only cure for profligacy. —Waco Times-Herald.

The mightiness of the pen is due to the ink.

"Can't Cut Off My Leg" Says Railroad Engineer

"I am a railroad engineer; about 20 years ago my leg was seriously injured in an accident out west. Upon my refusing to allow the doctor to amputate it I was told it would be impossible to heal the wound. I have tried all kinds of salves and had many doctors in the past 20 years, but to no avail. Finally I resolved to use PETERSON'S OINTMENT on my leg. You cannot imagine my astonishment when I found it was doing what over 100 things had failed to do. My leg is now completely cured." —Jas. Hauff, 739 Myrtle Avenue, Brooklyn, N. Y.

"It makes me feel proud to be able to produce an ointment like that," says Peterson of Buffalo. Not only do I guarantee Peterson's Ointment for all sores and wounds, but for eczema, salt rheum, ulcers, chafing, itching skin and blind, bleeding or itching piles, and I put up a big box for 25 cents at all drug stores, a price all can afford to pay, and money back if not satisfied." Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

A WOMAN PRESIDENT POSSIBLE IN 1944

New York, June 2.—The millions of American women who expect their political status to be changed by Federal amendment to citizenship next November are going to become a power for good in the nation according to Mrs. John Sherwin Crosby, a delegate to the democratic national convention in San Francisco next June. A woman president of the United States, she says, is "remote, but not impossible, say in 1944."

"The only two things worth while at present," said Mrs. Crosby, "are politics and religion. We all should study both; how to improve our government and make better men and women. When I speak of religion I don't mean any particular creed but the religion of the Gospels, the Ten Commandments and the Sermon on the Mount. The world is money-mad. Religion alone will free it from its selfishness and unrest."

Mrs. Crosby, who has been called "the mother of New York women democrats," a white-haired, dignified matron of more than three score years—she is the widow of a judge—declared the 300 or more women delegates would go to the convention with the determination to nominate a strong man and put through a constructive program.

"It will be the greatest convention ever held," she said, "because women for the first time will have a voice in it. I expect to see a bitter fight, particularly over the question of majority or unit rule. I can, of course only speak for myself and what the women may do when they enter the convention will depend largely upon the action they take in the preliminary caucuses. I believe a effort will be made to put a plank in the platform calling for a modification of the Volstead enforcement act and permitting the manufacture and sale of light wines and beer. I believe, however, that everyone should be obedient to law. I oppose anarchy and socialism."

"All American women," she continued, "are suffering from the profiteers. We must fight them and I am sure we have ingenuity enough to devise a way to defeat them and, in other ways, to bring down the cost of living. Inequitable taxation undoubtedly will come in for its share of attention at the San Francisco caucuses and the idea of Henry George of stopping speculation in land and relieving both workers and industry from some of their burdens undoubtedly will be advocated by women. The worst profiteer of all is the profiteer in houses and land. The 'unearned increment of land, the rental value, must be taken for public revenue or the people will stagger under their taxes till they drop."

The women leader declared that "with the change in the political status of women next fall there would come, however, no violent change in government affairs. It would take women a long time to become practical politicians, she said, but they would become such eventually. She said the time would come when women would fill the most important offices of the government, even to a woman president of the United States, supreme court justices and members of congress.

ROTARIANS HEAR ABOUT TUBERCULOSIS AND MEXICO

The mortality from tuberculosis is decreasing and has been for some time but the morbidity is increasing, stated Dr. Hugh R. Campbell, superintendent of the Norwich State Tuberculosis Sanatorium, in a talk at the weekly noon-day lunch of the Norwich Rotary club held at the Wauregan house on Wednesday.

In speaking of the tuberculosis situation as it confronts the people today, Dr. Campbell said the subject was so extensive that time would not allow a thorough discussion of the various phases of the disease and its cure but that he would discuss the questions most frequently asked him. The first question, "Is tuberculosis decreasing?" can be answered by stating that the mortality from tuberculosis is decreasing but the morbidity is increasing. There is a difference between active tuberculosis and tubercular infection. Active tuberculosis is the disease in the more advanced stages while every person has more or less tubercular infection in his system, but only certain conditions, such as pneumonia, influenza, severe mental and physical strain convert it into activity. The mortality rate is decreasing owing to the improved living conditions and a better knowledge of the treatment of the disease. The sanatorium is without doubt the best place to treat the disease for

To Make Your Hair Look Naturally Curly

Just apply a little liquid silmerine with a clean tooth brush before doing up the hair and you will have an beautiful curl and waves as you could wish for. They will be perfectly natural in appearance and will last a long time, even in damp or windy weather. The full effect is secured within three hours usually.

A few ounces of liquid silmerine—which will cost you but a few cents at any drug store—will last for weeks, so it is quite economical to use. It also serves as an excellent dressing, giving the hair a delightful gloss. When the hair is combed out it will be as fluffy as though it had just been shampooed.

Most Powerful Man In India

His highness the Maharajah, of Bikaner, entrusted with full ruling powers in the state of Bikaner. He is a Major in the British Army.

Mexico, countries in which he has served in the diplomatic corps. Both countries said Mr. Zabriskie, are very similar and there is that spirit of unrest and revolution in both. What they lack most is good, common sense leaders. They are like sheep and follow where the leader directs whether it be good or bad. If General Duke Michael had been allowed to assume control of Russia all would have been well, for the grand duke was very popular with the people and a man of strong character. In Mexico there would probably have been no revolution had the elections taken place on time. Mr. Zabriskie told of his meeting with the late President Carranza and General Obregon and said that he was very favorably impressed with them.

Both speakers were given a vote of appreciation by those attending. The members of both clubs will motor to the submarine base where a baseball game will take place between the two clubs. From the lineup of the team that is to represent the local club the boys from New London will have to step at a fast clip to hold their laurels. The local team comprises several men who played on college teams not so many years ago and have still their eye on the ball.

A feature of the luncheon of Wednesday was the introducing of a song written by Mrs. Louis Purtoon, especially for the Norwich Rotary club and dedicated to them. The secretary was instructed to send a letter of appreciation to Mrs. Purtoon.

Two new members, Arthur M. Brown and Louis M. Young, were introduced to the club and the right hand of fellowship extended to them by President Joseph C. Worth.

A letter of thanks was received from the Salvation Army in recognition of the gift of \$25 to the drive.

Following the meeting there was a meeting of the directors at which several items of importance were considered.

New Haven.—Graduating exercises will be held at Knights of Columbus hall, 474 Orange street, for the class of 1920, Sisters of Charity of St. Raphael's hospital, Tuesday evening, June 8.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got bold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no rest time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure if Bonniwell had personal knowledge to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

PALMER IN DEFENSE

(Continued from Page One)

Bonniwell was still in the midst of his accusations when a recess was taken at noon.

When the hearing resumed Mr. Bonniwell resumed the stand. Senator Pomeroy, democrat, Ohio, went directly to the examination of Mr. Bonniwell after Mr. Palmer, when offered a chance to question the witness, said he had come merely to make a statement to the committee. The senator repeatedly demanded that federal officials in Pennsylvania were "convincing" at violation of prohibition laws. A statement that the witness was "satisfied" that such was the case was put aside and Senator Pomeroy insisted, only repeated his question until the witness finally answered:

"No, sir." He added that if the committee would give him two weeks' time he would furnish legal evidence.

Mr. Palmer then rose. His charge that Bonniwell had employed "character assassination" efforts against him in Pennsylvania for years brought a warning from Senator Reed, democrat, Missouri, against "personalities," but the question was set at rest when Mr. Palmer was permitted to continue his statement under affirmation.

The speaker denied flatly and without qualification what he characterized as "these state" charges he had granted "immunity" to prohibition violators in Pennsylvania. He declared that on the contrary arrests had been made and the cases prosecuted during the election period and asserted also that he lacked power to grant such immunity had he so desired.

Throughout Mr. Bonniwell's testimony and his reply to Mr. Palmer and also in Mr. Palmer's statement, old political battles in Pennsylvania re-echoed. The committee asked no questions on these points, nor any questions at all of Mr. Palmer, and when Mr. Bonniwell concluded his brief answer, going into state campaign matters the attorney general had mentioned, the incident was closed for the committee, which began examination of John H. Bonner of San Francisco in connection with Senator Johnson's campaign in California.

In his letter to Chairman Dillingham of the full election committee, declaring he would no longer serve on the investigating committee, Mr. Bonner paid tribute to the committee, "has fully fulfilled the instructions and performed its duty impartially."

"The investigation has reached a point," he said, "where partisanship and factionalism are indicated by witnesses' testimony, and this I do not believe the senate contemplated or would care to countenance."

"No evidence of violation of any federal law has been brought out. Indeed, there is no federal presidential law to be broken. Whether the corrupt practices law of any state has been violated, the officials of such state must alone determine."

"In the very order of things it must be perfectly obvious that it would be eminently unfair and, I believe, unjustifiable after either party has selected a nominee to continue the investigation clearly confirmed as it is by the resolution under which we are operating, to presidential candidates."

In conclusion, Senator Edge said he could not further participate in what he termed "an almost endless controversy" and therefore must "insist" that he be relieved "from further inquisitorial pro-

The JORDAN Silhouette

WOMEN with a natural appreciation of comfort, atmosphere and poise, find this car irresistible in its compelling color and air of refinement.

That intuitive sense which knows the genuine at sight has awakened women's keen interest in the Jordan the country over.

The Jordan Silhouette bodies, as the well-informed already know, have been accepted as models by those who do not hesitate to follow intelligent leadership. In exquisite contour, warm colors, and studied detail in workmanship, they have marked the passing of the old—the advent of the new.

Here is a car—high-grade, light in weight, good-looking, perfectly balanced, rattle-proof, comfortable, economical, and striking in performance.

This is a car for the experienced owner who has acquired a sense of real motor car value.
